Our **We Plan, You Plant** design service is simple to use.

- Fill out this WPYP packet.
- Bring your completed packet along with printed photos to the nursery.
- Allow our designers up to two weeks to complete your plan.
- Once the design is complete, we make an appointment at the nursery to go over the design, and show you the recommended plants. We also provide a price
- There is a nominal **fee of \$75.00 which includes a \$25 certificate towards your plant purchases.**

NOTE: This service is for smaller projects such as entryways, small beds, courtyards, or landscaping across the front of your house. For larger projects such as the entire front or back yard, we offer our \$150 on-site design service.

Describe the specific area you need a design for. What are your goals for this spot?

Are there any plants in particular you would like to incorporate if feasible? Any plants you do not like? Any features such as a bench, path, fountain, bird bath or other garden accent you want to include?

Favorites:

Dislikes:

Special Features:

Other considerations we need to be aware of: (such as deer, specific colors, dogs, budget,)

What direction does the area to be designed face? (north, south, east, west)

How much sun does the area receive during the afternoon? (full, partial, none)

Are there any extreme conditions to be aware of ? (Very sunny, windy, wet, very dry)

Do you need to block a view or want more privacy? If yes, specify which direction.

Do you have a drainage problem in this section? Does it remain wet for days after it rains?

What style of landscaping are you looking for? Formal or informal? Do you like symmetry? Do you want a mix of evergreens and deciduous flowering shrubs? Add any comments you feel will help us better achieve your goals.

Now for some details and a drawing of the area along with rough measurements

Using the enclosed graph paper, draw the area to be designed to scale as though you were looking straight down on the area. (Specify number of squares on the paper that equal one foot). Include in your drawing any existing plants that you want to stay, sidewalks, downspouts, windows along with their height off the ground, and anything else that may affect the design.

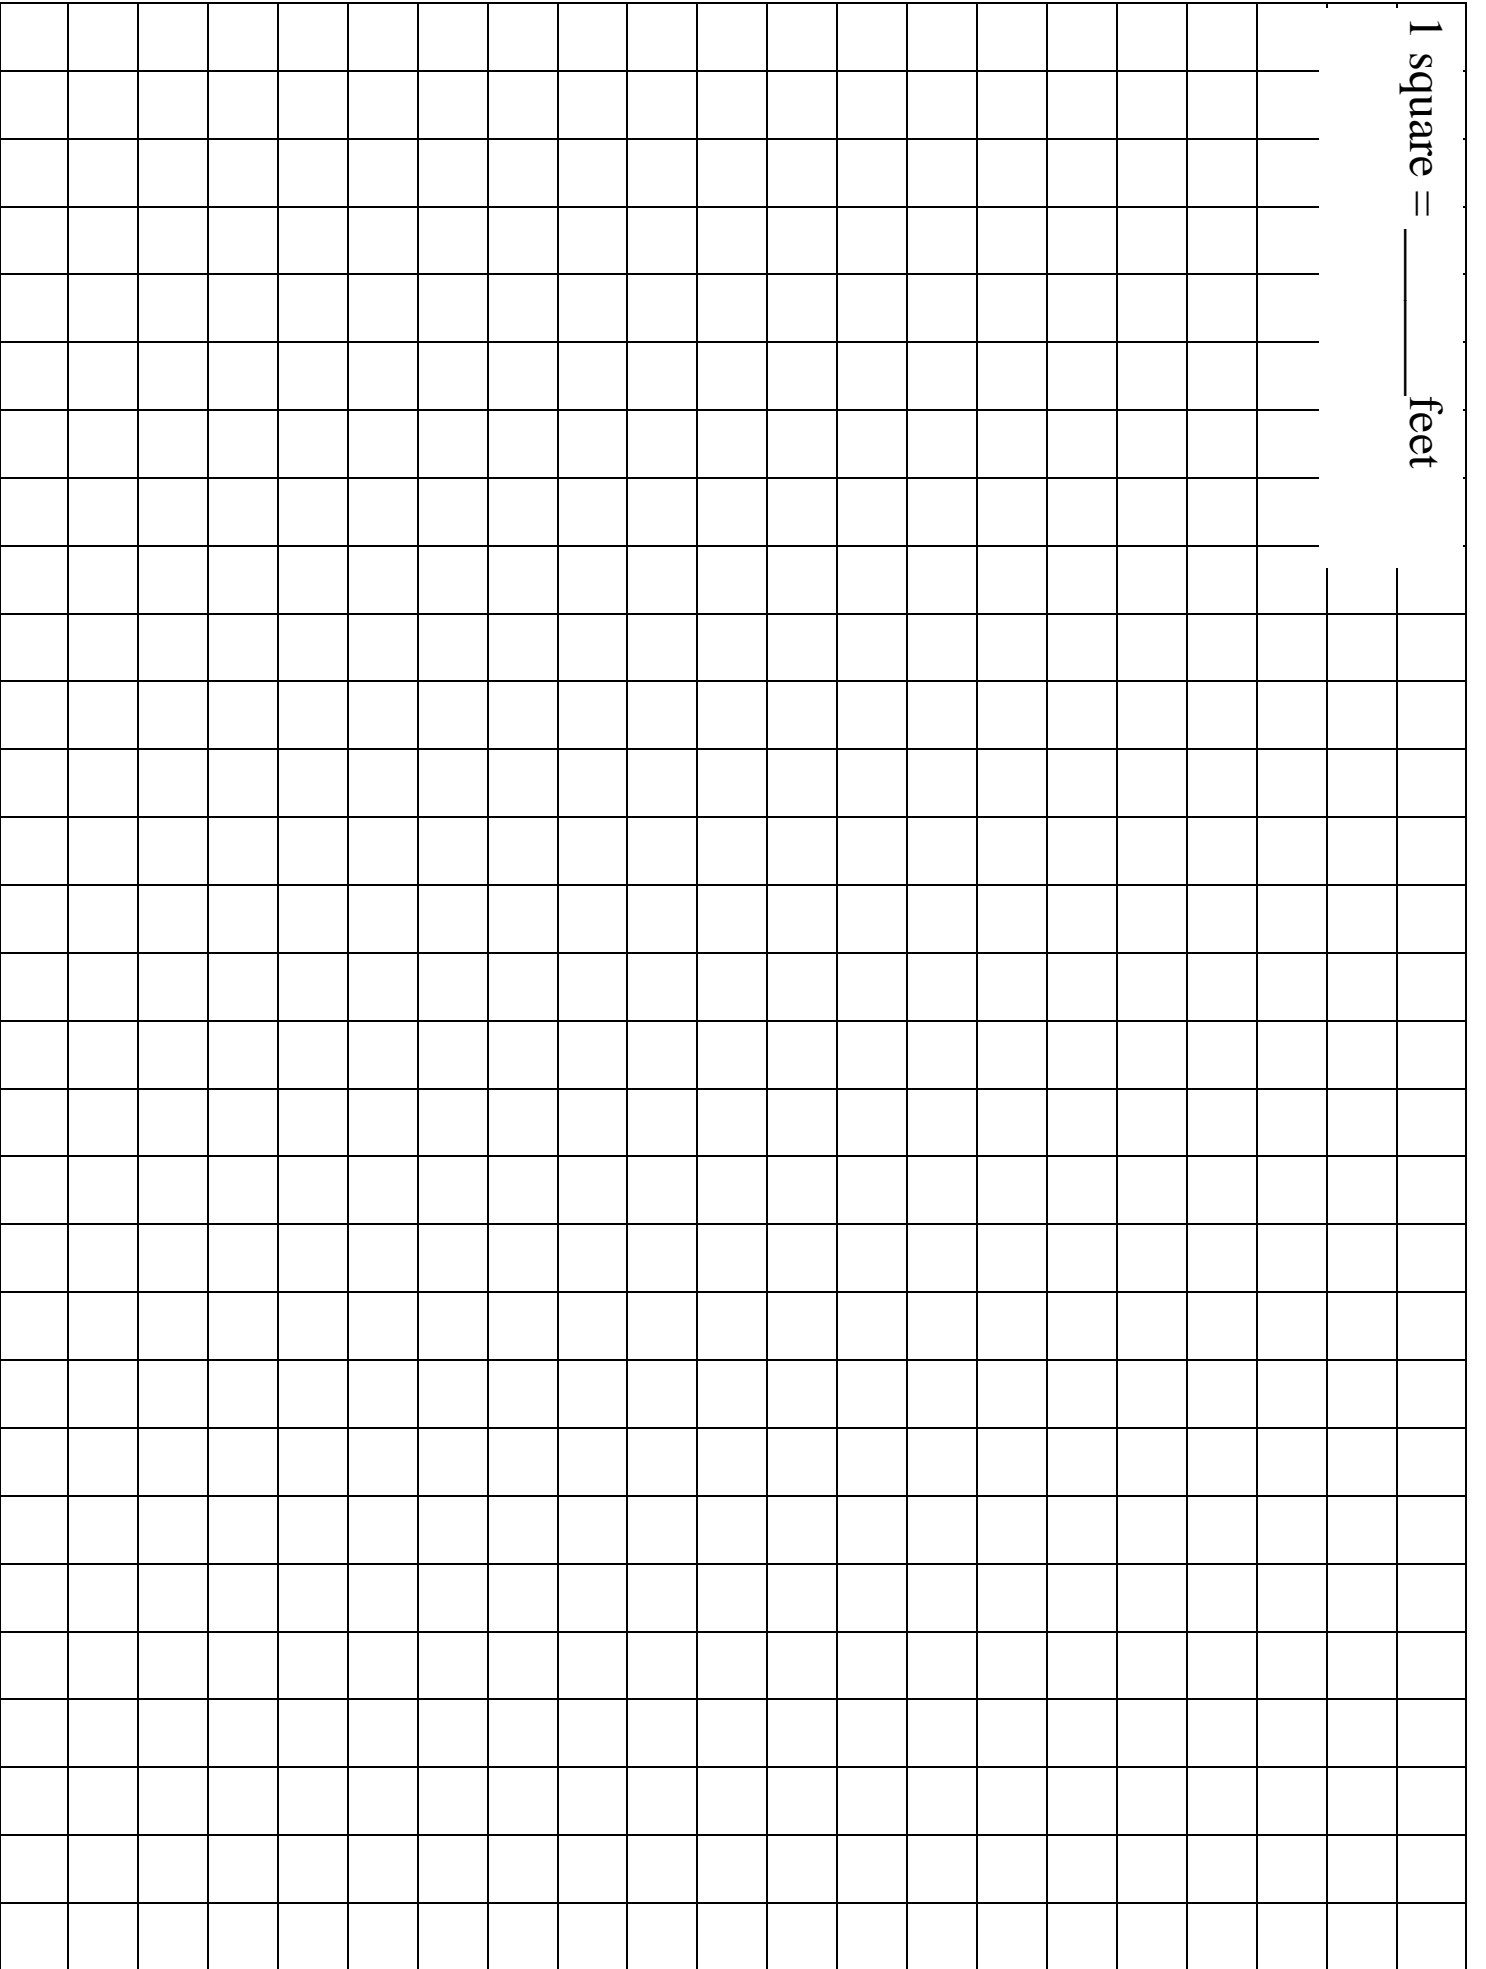

Photos are a Must!

Please attach several photos of the area from different angles so we have a clear idea of the space to be designed. The better view we have, the better job we can do designing. Please put your name on the back of the photos.

Questions? Don't hesitate to call if you are unsure of anything or need help filling out this form.

That's it, return this form along with your photos to either nursery, and our designers will get started.

1 square = _____ feet
